# I believe the following statement:

1. Our water supply is just fine. We don't need to do anything.
2. We are in desperate need of storage and need to build new reservoirs.
3. We can conserve our way out of future water needs.
4. We need to increase storage and increase conservation of our water supply.

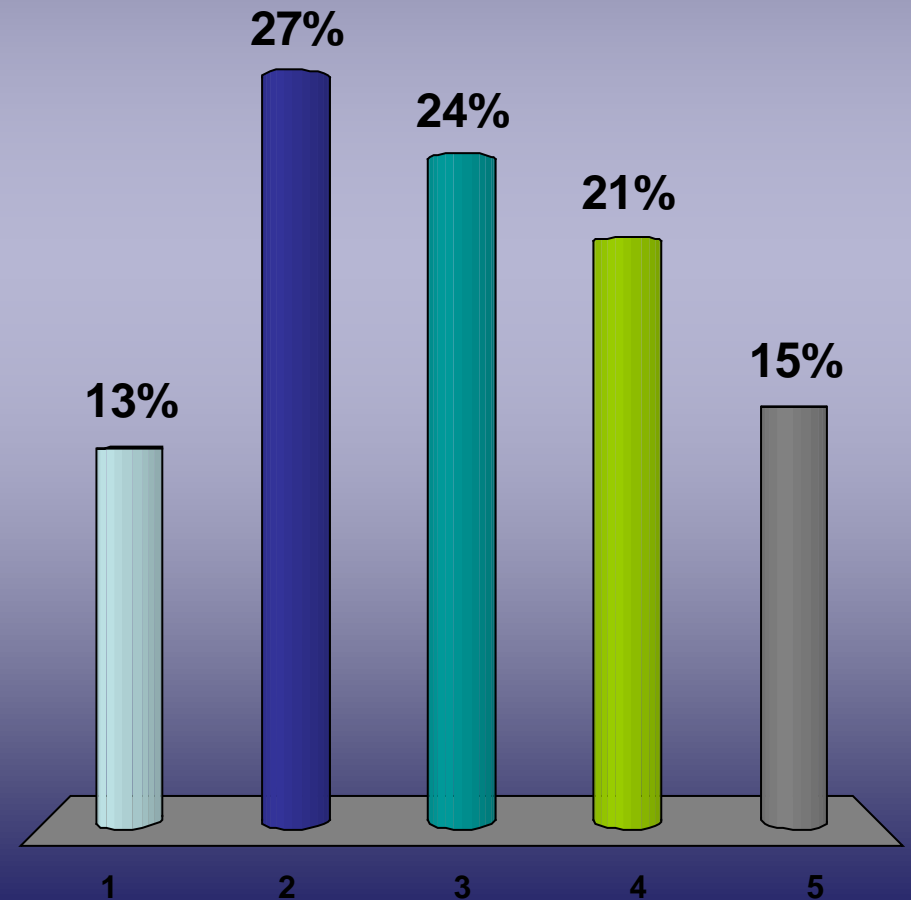

# NCLA should consider legislation to address our lack of storage.

# I believe that the current state funding for higher education in Colorado is:

1. Just right.
2. Too low.
3. Too high.

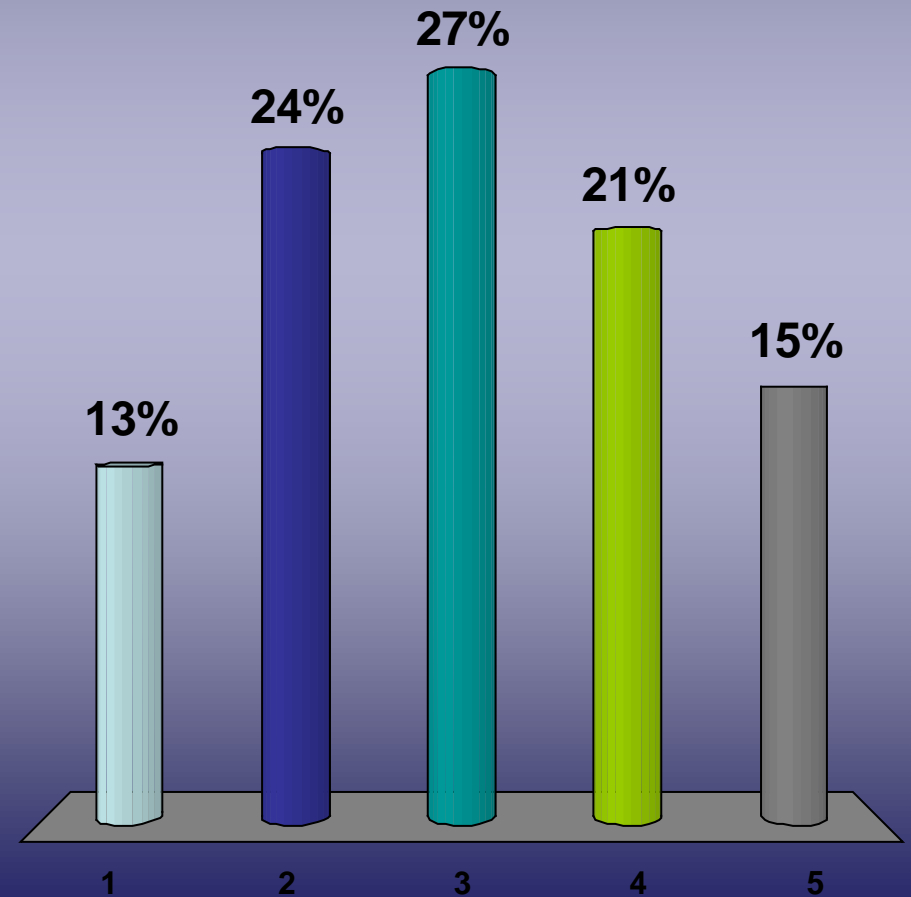

# NCLA should consider legislation to address the lack of funding for higher education.
